

JUAN CARLOS PLAZA BRICEÑO WEB DEVELOPER

SUMMARY

Self-taught web developer with expertise in HTML, CSS, responsive design and CSS3 animations. I am currently expanding my knowledge in web technologies with NextU and other e-learning platforms. I am a highly motivated person, I like to pay great attention to detail and I would like to deliver quality web products. I have notions of requirement gathering for small projects.

I am looking to develop my skills in web development and quality assurance to create better applications and web experiences.
